# Schedule #9: 7 period, 4/4/3/4/4, Innovative Day, Period 7 skinny

## Sample proposals for Innovative Day activities:

**Scenario 1:** Use the entire Innovative Day as a Flex day that would allow for labs, test makeups, school activities, teacher office hours, staggered PLC, advisory, doing homework, grading homework. This proposal also included an 8-period version with a mandatory free period, and a breakfast after 0 period instead of brunch.

**Scenario 2:** Divide the Innovative day into six 50-60 minute periods, 3 before and 3 after lunch (50 minute periods would allow PLC time at end of day; 60 minute periods probably would not). Activities could include: morning and/or afternoon tutorial; advisory/SEL; Socratic Seminar (on a school-wide topic selected on a rotating basis by different departments to promote courageous & respectful conversations); Passion Period (students explore topics of their choice, possibly sign up with a specific department/teacher); Fitness Flex (students & staff together doing volleyball, dance, yoga, soccer, ultimate, martial arts, etc.); school assemblies & rallies.

**Scenario 3:** Use the Innovative Day as a day with no academic classes. Instead students do independent self-enrichment projects that help them find their own passions and career interests. Students initially develop their project and career ideas in their advisories. Innovative Day activities include watching documentaries about a field of work, consulting with teachers in their field of interest, and small group field trips. Students make a report back to their advisory monthly and write an end of semester reflection.

**Must check this schedule with auditor re: compliance & viability issues. Weekly course minutes are at minimum of 200. Must have 1 skinny period or student end time will be 4:25 on 2 days**
