Career Pathway

Students will graduate with a specific post-secondary plan in place. Students will have gained work experience, received mentoring, completed a capstone project, developed a digital portfolio, and mapped out a career pathway. Students will also be able to present themselves in a professional manner, be able to communicate effectively, and understand a career pathway.

"Most young people learn best in structured programs that combine work and learning, and when learning is contextual and applied."

Pathways to Prosperity Project, Harvard Graduate School of Education, February 2011
