Be a friend to the NEW Paly Library.

Construction has begun and will be completed in 2019. **We need remodel funds for equipment and furnishings to make this a great place for students to study and collaborate.** Highlights of the remodel include: a dedicated silent study room with task lighting, multi-media collaboration rooms for students, a dedicated teaching space, and a reading area with comfortable furniture and natural light. **We need funds to support the ongoing process of updating our print and online resource collections,** which include a wide range of print books, newspapers, magazines, databases, and ebooks that are perfect for high school reading and research. For more information about the building project or the resource collections please contact the teacher librarians <http://www.paly.net/academics/library> .
