

Parents- Setting up your Schoology account

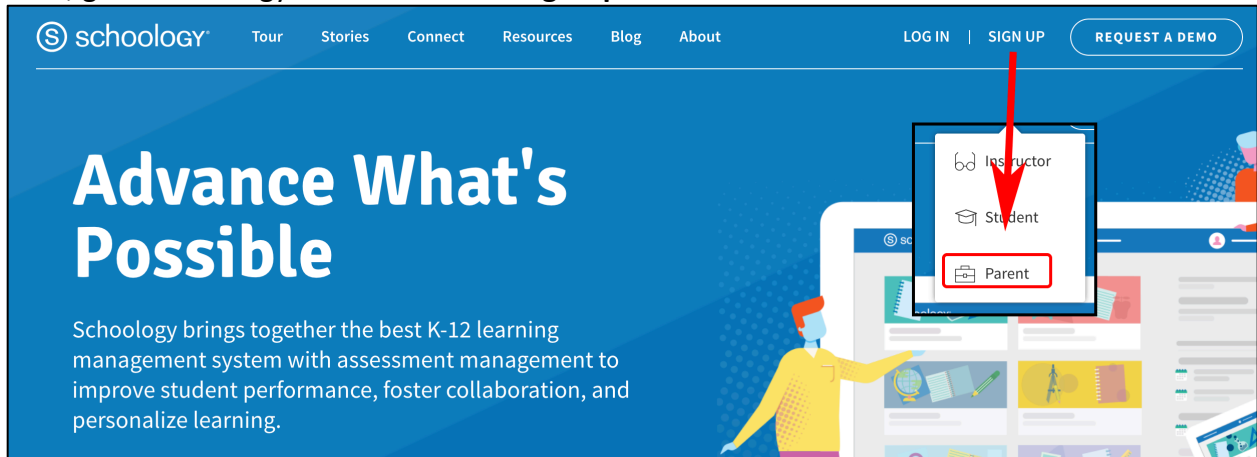

Log into Infinite Campus and then click on **More** in the left-hand menu and then click on **More info**.

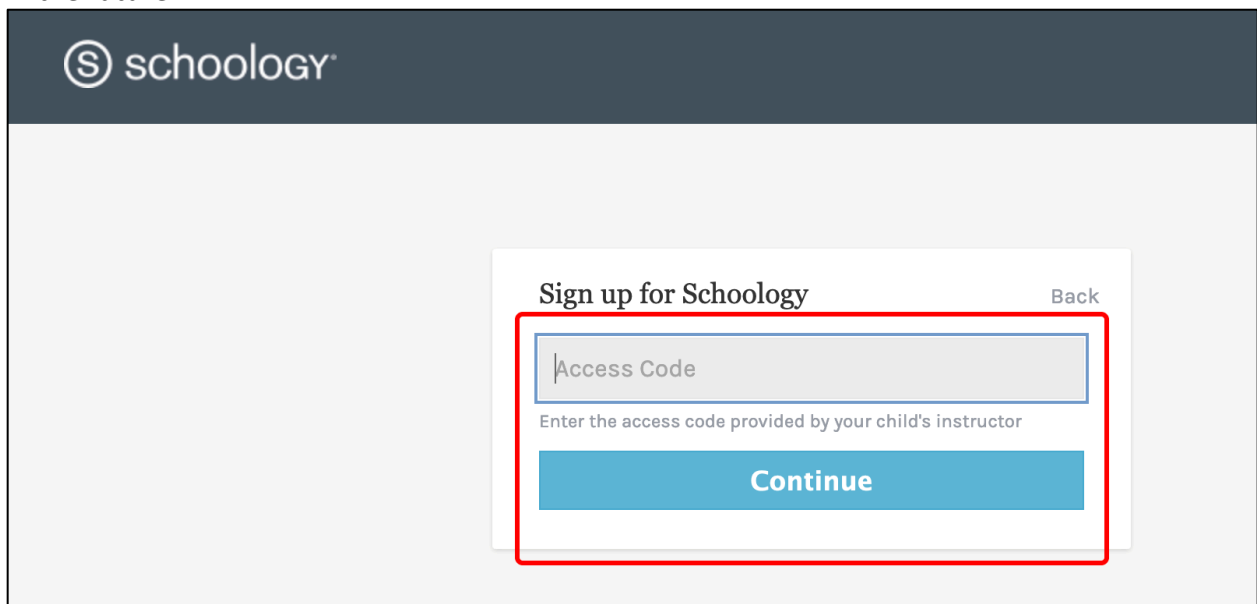

If you have more than one student in PAUSD, click on the arrow in the upper right and then select the student that you are trying to add to Schoology. Locate the **Schoology Code**.

Next, go to Schoology.com. Hover over **Sign Up** and select **Parents**.

Enter the access code from Infinite campus and click on **Continue** to set up your parent Schoology account. Special note: Please use a current email address. PAUSD cannot reset parent Schoology passwords, so you will need a functional email to reset passwords if needed in the future.

Follow the instructions and the linkage will be made available.

If you would like access to more than one child in Schoology, follow these instructions: Once you have the linkage for the first child, find the dropdown menu where your name displays. There is a place there to add a child [+]; Click on that and enter the Schoology code for the second child (also from Infinite Campus) and the linkage will be made.

You only need to do this once while you are at PAUSD. Once you have set up your parent Schoology account, you should never have to go through these steps again.
